True Xero™ hybrid AOC cabling technology uses copper wires and optical fibers to join the electrical connectors on each end of the cable. The result is improved speed and bandwidth transmission distances with a thinner cable that is flexible and lightweight. True Xero™ DP Alt-Mode USB-C cables are designed for connecting devices that support DisplayPort video over Alt-Mode and support USB2 data signals. True Xero™ AOC cables deliver superior performance while providing a reliable plug-and-play user experience.
